Subject: **Granville Solvents Site Removal Action**
Reinstatement of the Village of Granville Water Supply Capacity

Dear Ms. Spencer:

At the end of our meeting with you on May 19, 1997, the Granville Solvents Site (GSS) PRP Group requested the U.S. EPA's acknowledgment that its obligation to reinstate the Village of Granville water supply capacity under Section 5.2.e.2 of the Administrative Order of Consent (Order) has been met. As you are aware, the U.S. EPA has been notified that the GSS PRP Group has fulfilled all requirements of this section of the Order (September 25, 1996).

On behalf of the GSS PRP Group, Metcalf & Eddy of Ohio, Inc. installed and tested new municipal water well PW 4. The Village of Granville applied for and received permission from the Ohio EPA to use this well as part of their water supply network and routinely does so. Detailed drawings and test results have previously been submitted to the U.S. EPA.

The GSS PRP Group respectfully requests the U.S. EPA's acknowledgment that its obligations under Section 5.2.e.2 of the Order have been met. If you have questions, please contact me at (614) 890-5501.

Respectfully,

METCALF & EDDY OF OHIO, INC.
